

EXHAUSTO ECSTATIC AT REFUND

REFUND OF OVER £4,000

EXHAUSTO

EXHAUSTO is a professional supplier and partner of ventilation solutions. They develop and manufacture products and systems for comfort ventilation. Their objective is to be among the absolute leaders in this area, focused on high quality products, very high efficiencies and thereby energy consumption levels which set new standards for the industry.

EXHAUSTO is a global company, operating a sales subsidiary in Crawley, West Sussex. This is the premises that they instructed CVS to carry out a historic Rating Audit on.

RESULTS

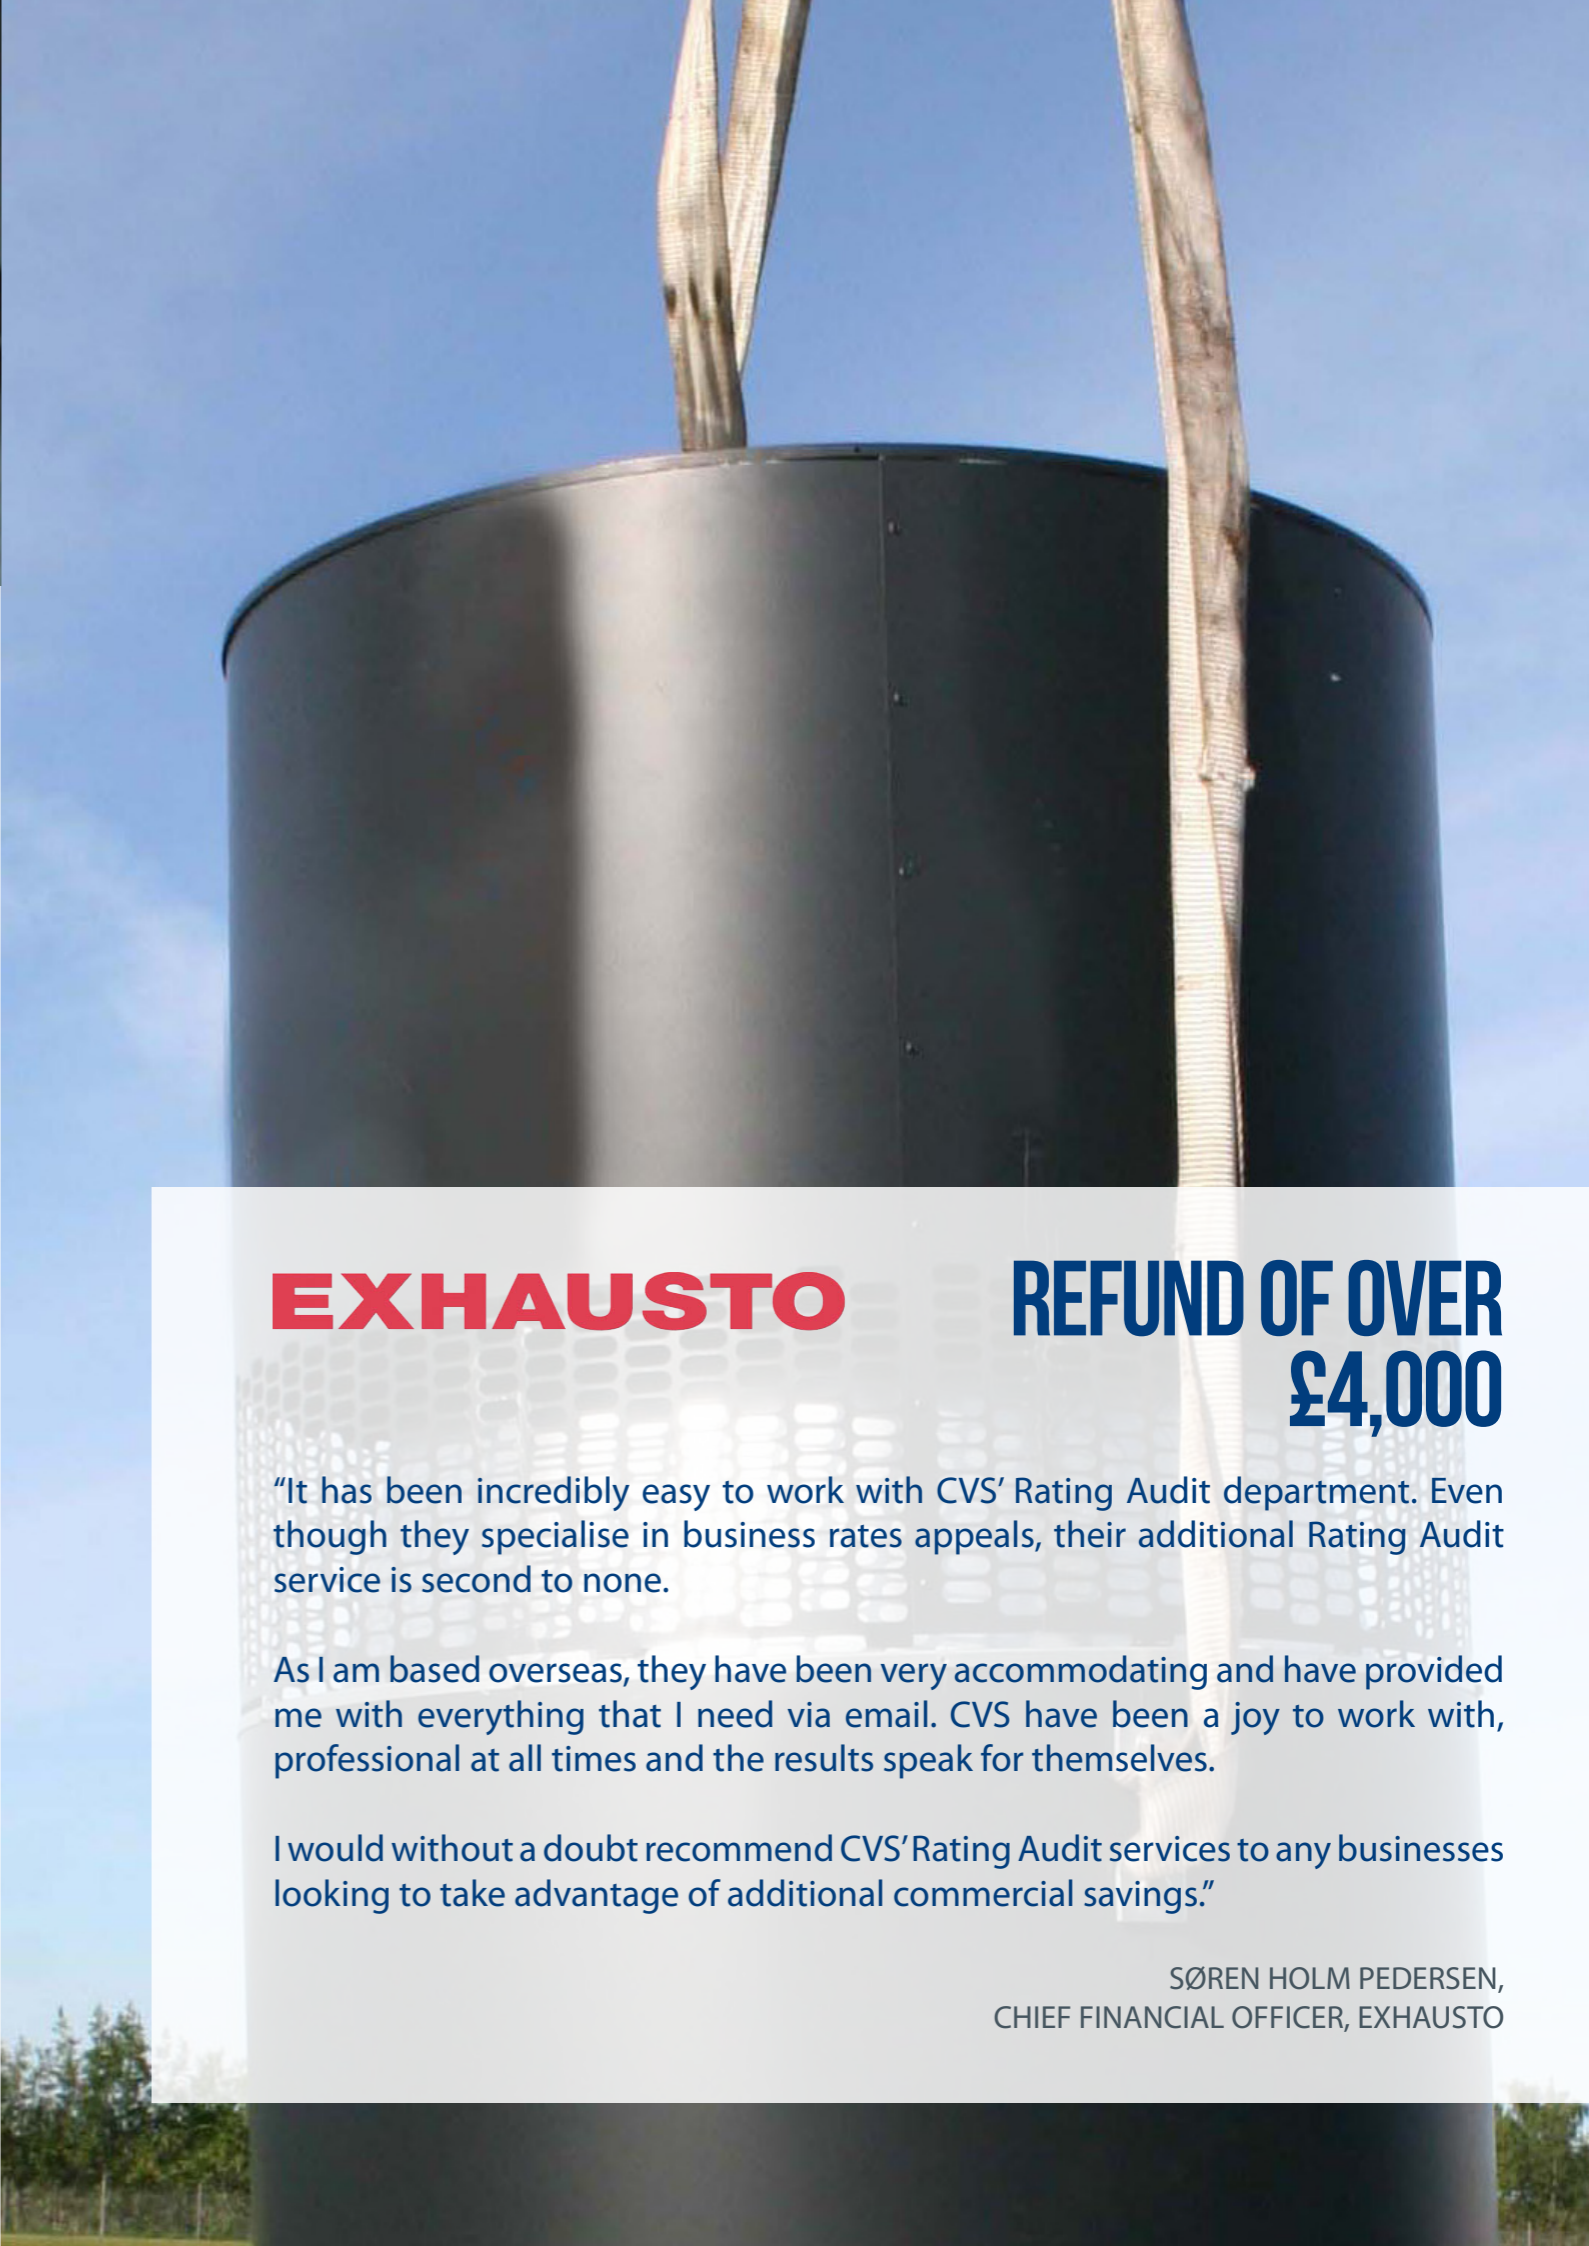

As the main point of contact at EXHAUSTO is based in Denmark, CVS worked on their behalf and carried out all effective communication via email. This particular Rating Audit began in December 2013 and CVS have successfully generated EXHAUSTO a one off refund of £4,382.

AUDITOR COMMENTS

"We conducted an in-depth analysis of historic rating liability during which it was found that there had been misapplication of the rating legislation by the local Billing Authority.

CVS discussed this with the Billing Authority following an instruction to act by EXHAUSTO and after lengthy negotiations we were able to secure the refund for £4,382."

Alex Ganz, Rating Audit Manager, CVS

EXHAUSTO

REFUND OF OVER £4,000

"It has been incredibly easy to work with CVS' Rating Audit department. Even though they specialise in business rates appeals, their additional Rating Audit service is second to none.

As I am based overseas, they have been very accommodating and have provided me with everything that I need via email. CVS have been a joy to work with, professional at all times and the results speak for themselves.

I would without a doubt recommend CVS' Rating Audit services to any businesses looking to take advantage of additional commercial savings."

SØREN HOLM PEDERSEN,
CHIEF FINANCIAL OFFICER, EXHAUSTO
